

WHAT ARE STEM CELLS?

How can Regenerative Medicine help with chronic joint pain?

Are all cells the same?

We'll be answering these questions and many more!

FREE EDUCATIONAL EVENT
Saturday, Feb 13th at 12:30pm
at our office: 808 Reading Rd

Regenerative Medicine has revolutionized treatment of chronic pain and inflammation in the knees, shoulders, elbows, hips, wrists and elsewhere. But there's a lot of confusion out there over how it works, where the stem cells come from, what kind of cells are most effective, etc.

Get answers to these questions and more.

Attendance is free but seating is limited, RSVP required.

A light lunch will be served!
